Expected module names: Fleet, Customers, Activities, System

Fleet	Customers	Activities	System
-------	-----------	------------	--------

Test cases #1

Description: Managers access to main modules

Environment: <https://qa1.vytrack.com/user/login>

Steps: 1. login as a salesmanager or storemanagers

2. Verify the users see 8 modules: Dashboards, Fleet, Customers, Sales, Activities, Marketing, Reports & Segments, System

Test cases #2

Description: Drivers access to main modules

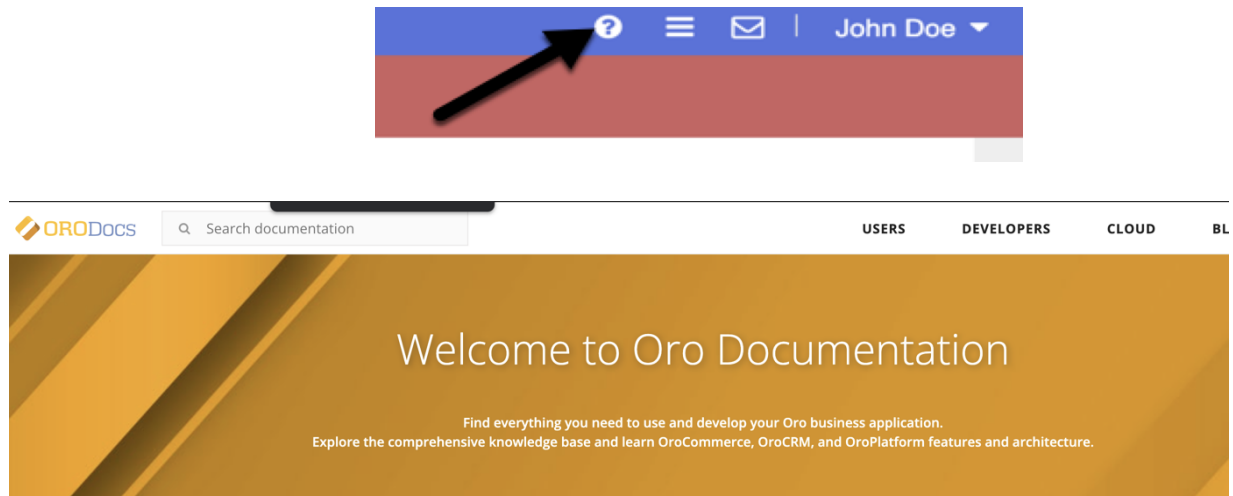

Environment: <https://qa1.vytrack.com/user/login>

Steps:: 1. login as a driver

2. Verify the users see 4 modules: Fleet, Customers, Activities, System

Story2: As a user, I should be access to the Oroinc Documentation page. (Window handle)

AC #1: users access the Oronic Documentation page by clicking the question icon. The page URL: <https://doc.oroinc.com/>

Test cases #1

Description: users access the Oronic Documentation page

Environment: <https://qa2.vytrack.com/user/login>

Steps:

1. Users are on the homepage
2. Click the question icon on the right top of the homepage
3. Verify the users access to the Oronic Documentation page

Story3: As a user, I want to learn how to use the pinbar.

AC1: when users click the “[Learn how to use this space](#)” link on the homepage, users should see:
“[How To Use Pinbar](#)” and
“[Use pin icon on the right top corner of the page to create fast access link in the pinbar.](#)”

How To Use Pinbar

Use pin icon on the right top corner of page to create fast access link in the pinbar.

← image

AC2: users should see an image on the page.
[in automation testing, just verify the image source.]

Expected source:

</bundles/oronavigation/images/pinbar-location.jpg>

Test cases #1

Description: users learn how to use the pinbar

Environment: <https://qa2.vytrack.com/user/login>

Steps:

1. Users are on the homepage
2. Click the [Learn how to use this space](#) message
3. Verify the users see 2 messages:
 “[How To Use Pinbar](#)” and
 “[Use pin icon on the right top corner of the page to create fast access link in the pinbar.](#)”

Test cases #2

Description: users see an image on the pinbar page

Environment: <https://qa2.vytrack.com/user/login>

Steps:

1. Users are on the homepage
2. Click the [Learn how to use this space](#) message
3. Verify users see an image
 (manual testing - screenshot proof
 Automation testing - verify image source)

Story4: As a user, I want to access to Vehicle contracts page

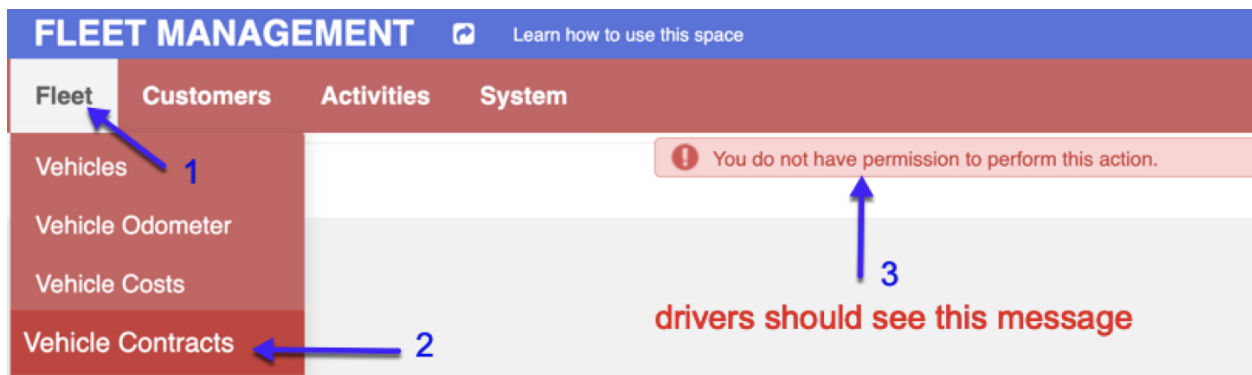

AC1: Store managers and Sales managers access the Vehicle contracts page.

Expected URL:

https://qa2.vytrack.com/entity/Extend_Entity_VehicleContract

Expected title: All - Vehicle Contract - Entities - System - Car - Entities - System

AC2: Drivers should **NOT** able to access the Vehicle contracts page, the app should display “**You do not have permission to perform this action.**”

Test cases #1

Description: Managers access the Vehicle contracts page

Environment: <https://qa2.vytrack.com/user/login>

Steps:

1. Login as store or salesmanager
2. Click the Vehicle contracts under the Fleet
3. Verify managers can access the Vehicle contracts page

Test cases #2

Description: Drivers can NOT access the Vehicle contracts page

Environment: <https://qa2.vytrack.com/user/login>

Steps:

1. Login as drivers
2. Click the Vehicle contracts under the Fleet
3. Verify users see an error message: “**You do not have permission to perform this action.**”

Story5: As a user, I want to view columns on the Vehicle models page.(web-table)

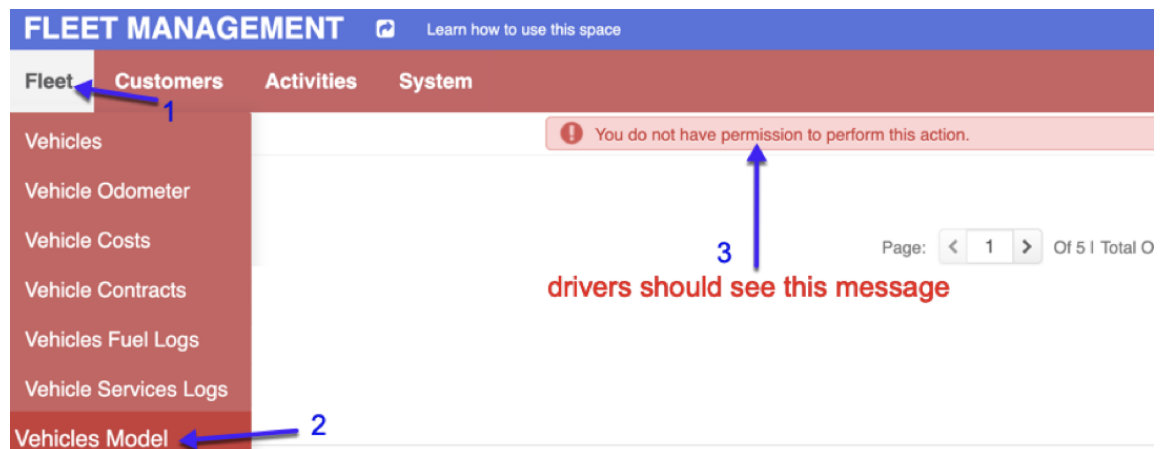

AC #1: The store manager and sales **manager** should see **10** columns on the Vehicle Model page.

Expected Column names:

MODEL NAME, MAKE, CAN BE REQUESTED, CVVI, CO2 FEE (/MONTH), COST (DEPRECIATED), TOTAL COST (DEPRECIATED), CO2 EMISSIONS, FUEL TYPE, VENDORS

<input type="checkbox"/>	MODEL NAME	MAKE	CAN BE REQUESTED	CVVI	CO2 FEE (/MONTH)	COST (DEPRECIATED)	TOTAL COST (DEPRECIATED)	CO2 EMISSIONS	FUEL TYPE	VENDORS	***
1	2	3	4	5	6	7	8	9	10		

AC #2: Drivers should not able to access the Vehicle Model page, users should see “**You do not have permission to perform this action.**”

Test cases #1

Description: manager access the Vehicle models

Environment: <https://qa2.vytrack.com/user/login>

Steps:

1. Login as store and sales managers
2. Click the Vehicle Model under the Fleet
3. Verify managers see 10 columns in the web-table

Test cases #2

Description: Drivers can **NOT** access the Vehicle models page

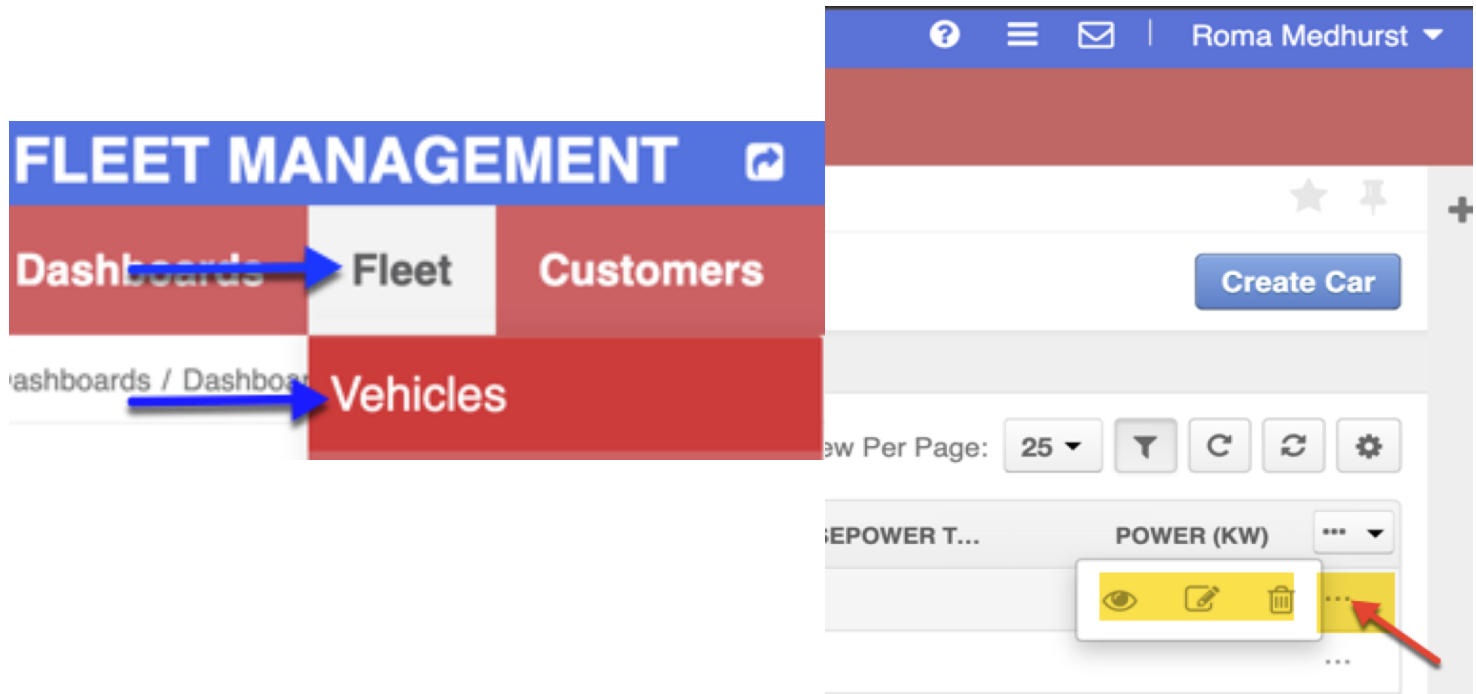

Environment: <https://qa2.vytrack.com/user/login>

Steps:

1. Login as store and sales managers
2. Click the Vehicle Model under the Fleet
3. Verify the drivers see the error message “**You do not have permission to perform this action.**”

Story6: As a user, I want to see edit car info icons from the Vehicle page.

AC #1: users should see “**view, edit, delete**” when they hover the mouse to the 3 dots “...”

Test cases #1

Description: users see the car edited options on the Vehicle page

Environment: <https://qa2.vytrack.com/user/login>

Steps:

1. Users are on the homepage
2. Click the Vehicles under the Fleet
3. Verify any car info has 3 dots “...”, and there are “**view, edit, delete**” icons.

Story7: As a user, I should be to select any **vehicle** from the Vehicle page(web-table)

AC #1: once the users launch on the Vehicle page, all the checkboxes should be unchecked.

Random car selected

Test cases #1

Description: users view unchecked checkboxes on the Vehicle page

Environment: <https://qa2.vytrack.com/user/login>

Steps:

1. Users are on the homepage
2. Click the Vehicle under the Fleet
3. Verify all the checkboxes are unchecked

Test cases #2

Description: users check the first checkbox to check all the cars

Environment: <https://qa2.vytrack.com/user/login>

Steps:

1. Users are on the homepage
2. Click the Vehicle under the Fleet
3. Click the 1st checkbox in the web-table
4. Verify all the checkboxes also checked

Test cases #3

Description: users check any car's checkbox

Environment: <https://qa2.vytrack.com/user/login>

Steps:

1. Users are on the homepage
2. Click the Vehicle under the Fleet
3. Check any car's checkbox
4. Verify the box is checked

Story8: As a user, I want to create a recurring(repetitive) calendar event.

AC #1: user should see the number “1” by default in the Repeat Every input.

The screenshot shows the 'Create Calendar Event' form. The 'All-Day Event' checkbox is unchecked. The 'Repeat' checkbox is checked. The 'Repeats' dropdown is set to 'Daily'. The 'Repeat Every' field is set to '1' day(s), highlighted with a yellow box and a red arrow pointing to it with the text 'default number should be 1'. The 'Ends' section has 'Never' selected. Below the form, a summary bar shows 'Summary: Daily every 1 day'.

AC #2: user should see an error message “This value should not be blank.” when the Calendar event repeat field is cleared(delete the number 1).

The screenshot shows the 'Create Calendar Event' form with the 'Repeat' section. The 'All-Day Event' checkbox is unchecked. The 'Repeat' checkbox is checked. The 'Repeats' dropdown is set to 'Daily'. The 'Repeat Every' field is empty, highlighted with a red box, and a red arrow points to it with the error message '✖ This value should not be blank.'. The 'Ends' section has 'Never' selected. Below the form, a summary bar shows 'Summary: Daily every 1 day'.

Test cases #1

Description: users see the default repeat day as 1

Environment: <https://qa2.vytrack.com/user/login>

Steps:

1. Users are on the homepage
2. Click the “Calendar Events” under the Activities
3. Click the “Create Calendar Event” button
4. Check the Repeat checkbox
5. Verify the repeat number is 1

Test cases #2

Description: users clear the repeat day and see an error message

Environment: <https://qa2.vytrack.com/user/login>

Steps:

1. Users are on the homepage
2. Click the “Calendar Events” under the Activities
3. Click the “Create Calendar Event” button
4. Check the Repeat checkbox
5. Clear(delete) the number 1
6. Verify the app displays “This value should not be blank.”

Story9: As a user, I should see error messages when I enter an invalid integer into the calendar repeat day input box.

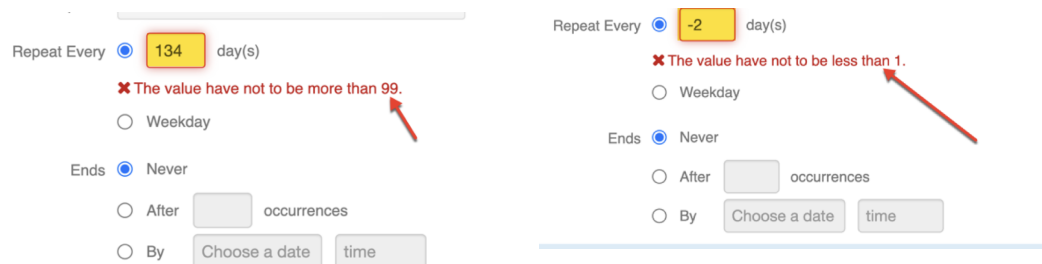

AC #1: users see error messages for entering invalid integers.

If enters less than 1 —> user should see “The value have not to be less than 1.”

If enters more than 99 —> user should see “The value have not to be more than 99.”

[Note: no need to test valid number, data type, etc in this story.]

Test cases #1

Description: users enter an INVALID integer in the repeat day input box

Environment: <https://qa2.vytrack.com/user/login>

Steps:

1. Users are on the homepage
2. Click the “Calendar Events” under the Activities
3. Click the “Create Calendar Event” button
4. Check the Repeat checkbox
5. Users enter an INVALID integer ($x < 1 \parallel x > 99$)
6. Verify users get 2 error messages

Story10: As a user, I want to write the “Description” when I create a calendar event. (Iframe)

All-Day Event ☐

Repeat ☐

AC1: users should be able to write messages in the Description field on the calendar event page.

Create Calendar Event
